OBJECTIVE

Systems Engineer at TCS (8 months) specializing in **Python, Generative AI, and AI/ML**. Seeking **AI/ML Engineering** roles to apply expertise in **LLMs, computer vision, and scalable backend solutions**.

EDUCATION

B.Tech – Electronics & Computer Engineering (Minor: AI/ML), VIT University, Chennai	2021 – 2025
CBSE – St. Johns Public School, Chennai	2014 – 2021

SKILLS

AI/ML: Python, LLMs, Generative AI, TensorFlow, PyTorch, YOLOv5, OpenCV, Computer Vision
Backend & Cloud: Java, Spring Boot, REST APIs, Node.js, SQL, ServiceNow, AWS, Azure AI, GitHub

EXPERIENCE

Systems Engineer – Tata Consultancy Services, Chennai Sep 2024 – Present

- Building **GenAI-powered applications** and **AI/ML solutions** using Python and large language models for enterprise clients.
- Developing intelligent automation pipelines integrating **Generative AI** into scalable production systems.

ServiceNow Developer Intern – Tata Consultancy Services, Kerala Mar 2025 – Apr 2025

- Customized **Incident, Problem, Change** modules using **Script Includes, GlideRecord** and **Business Rules**; automated workflows and UI policies to improve ITSM responsiveness.

Software Developer Intern – FORD GTBC, Chennai Aug 2023 – Nov 2023

- Built **REST API** (Java Spring Boot) for image similarity detection; used **OpenCV** and **Tesseract OCR** to extract invoice data with **86%** accuracy.

PROJECTS

ZivaDesk – Multi-Tenant AI Receptionist

- SaaS platform with 24/7 **WhatsApp bot** and **Voice AI** for automated lead capture, demo booking, and a unified **Business Dashboard** aggregating leads and campaigns across all channels.

Sign Language Detection – *YOLOv5s, OpenCV, Python, TTS* [\(Link\)](#)

- Real-time gesture recognition with **87% accuracy**; converts signs to text and speech improving accessibility.

StockProphet – *LSTM, Yahoo Finance, Streamlit* [\(Link\)](#)

- LSTM-based stock price predictor with time series modeling and interactive dashboard.

CERTIFICATIONS

AWS Cloud Practitioner – Amazon **AI-900 Azure AI Fundamentals** – Microsoft **ML & Deep Learning** – GUVI [\(Verify\)](#)
